1. Search for "OverDrive" in your smartphone's or tablet's app store.

2. Install the OverDrive app.

* Overdrive is the same software used by the San Antonio Public Library to circulate their digital collection.

* Overdrive will allow you to save digital books to your device. When you do this, you will not need an Internet connection to read the books.

Directions for the different devices can be found on the Fisher Library website at: <u>http://fishermarlinlibrary.weebly.com/electrifyi</u> ng-ebooks.html

3. You may also want to download the Kindle

4. Select a method of authorization (we recommend the "Under 13 years old or using OverDrive through your school" option).

5. In "My Libraries" click "Add a library" to find your school.

6. Search for your school by zip code.

7. Scroll down and click on Fisher, then click on Northside.

8. Log into the digital library site with your child's username. This will be their student ID# with an "s" in front of it.

9a. Browse titles or search for a book about a topic in which you are interested. There are several main ways to browse.

9b. These are the 4 main ways to browse.

9c. If you click on "subject" you will get a list of all the subjects in the NISD collection.

9d. If you click on "levels" you can browse by reading level or interest level.

9e. If you click on "collections" you will see categories such as "2x2 books", "Bluebonnet books", and "Newly Added eBooks".

11. Select "Borrow" when you find one you'd like to read.

12. Follow the steps to check the book out to your device.

Logging in from a home desktop or laptop?

- 1. Go to <u>www.nisd.net</u>
- 2. Hover over <u>Departments</u>, then click on <u>Library</u> <u>Services</u>.
- 3. Hover over <u>Educators/Students</u>, then click on Elementary Library Resources.
- 4. Scroll down to the 3rd section, called <u>E-books</u>.
- 5. Click on **Overdrive**.

Future Workshops

We are hoping to schedule future workshops to demonstrate other electronic resources such as the Fisher eBooks and databases such as Tumblebooks, PebbleGo, and Encyclopedia Britannica.

We hope to see you there!
